Forecast for Monday 23 May 2022

Weather: Mist, drizzle and low cloud will be quite widespread overnight but cloud thinning towards dawn, eastern ranges may be clearer to start the day. The day will brighten up but it will be quite cloudier for inland ranges like Glen Affric, with western coastal areas like Torridon seeing the best chance of sunny intervals. Frequent light showers will develop by late morning. A few clearer spells by evening with some late sunshine likely.

Chance of cloud-free hill tops above 800m: 40% improving to 80% in the morning, a lot of low cloud and mist for the early morning affecting the summits.

Low cloud and visibility: Scattered or broken low cloud above 600m in the early morning will thin and become patchier by mid morning. Visibility will be good for most of the day but may dip moderate in light showers with patches of cloud falling to 700m for a time.

Met Office Aberdeen Meteorologist's View
Feeling quite cool on the summits but winds will be quite light at all levels.

Forecast for Tuesday 24 May 2022
Weather: A dry and bright start to the day but a few light showers soon developing and these may be slow to clear in the light winds, perhaps drier and brighter through the afternoon but cloud thickening through the evening with some rain moving in from the west overnight.

Maximum wind: Northwesterly 10-15mph

Chance of cloud-free hill tops above 800m: 60 improving to 90%, most low cloud lifting above the summits during the morning, a few patches forming in any heavier afternoon showers.

Low cloud and visibility: Scattered low cloud will affect western summits in the early morning but this will lift and clear leaving very good general visibility for all ranges.

Temperature: **Glens:** Plus 6 rising to 12 Celsius.
At 800m: Plus 2 rising to 5 Celsius.
Freezing level: Above all summits.
